WORK EXPERIENCE

Software Support Engineer - PS Team NCR Corporation

11/2023 - Present

Belgrade, Serbia

Responsibilities

- Monitored and optimized application performance on diverse platforms (Desktop, Web, and Mobile).
- Oversaw end-to-end application process flows and proactively identified potential security threats on the server-side.
- Collaborated with the development team, contributing to maintain and upgrade the application source code to meet client-specific requests.
- Collaborated in the development of application security policies, ensuring robust protection against emerging threats.
- Engaged in seamless application upgrades, emphasizing continuous improvement and adherence to security best practices.

Technical Service Desk Specialist - RBI NCR Corporation

02/2022 - 11/2023

Belgrade, Serbia

Network, Hardware and Software support

Responsibilities

- Supported clients in maintaining and troubleshooting enterprise network, specializing in Cisco switches, firewalls, routers, and VMware SD-WAN.
- Collaborated on optimal network design and implementation for secure and efficient connectivity in enterprise offices.
- Proficiently logged and tracked client requests in the ticketing system, meeting company-defined SLAs and ensuring case resolution with team.
- Oversaw corporate enterprise accounts, applications and workstations to proactively identify security vulnerabilities.
- Prioritized and resolved technical issues, ensuring SLA adherence.

COURSES

Cyber Security SOC Analyst Course Oktacron.rs - Poslovna Savrsenost

10/2023 - 12/2023

Cyber Security

Course Accomplishments

- Completed cybersecurity course with a focus on SOC practices. Gained hands-on expertise in Splunk for advanced analytics, facilitating proactive identification and mitigation of IOCs.
- Applied malware forensics, conducted penetration testing, and performed reconnaissance. Explored theories in attack types, Active Directory attacks, cryptography, and security domains.

Java Development Course Poslovna Savrsenost

01/2021 - 10/2021

Java Programming

Course Accomplishments

- Developed back-end and web Java Applications with Hibernate ORM, Maven, Spring Boot and Thymeleaf with addition of testing the project structure and source code with JUnit and Mockito.
